

MODULE SPECIFICATIONS

Bank Risk Management (BRM)

Level of Study: Chartered Banker (Level 3)

Effective date: 1 September 2023

Version: 2.1

Inclusion of qualification time limit in Section F and module time limit in Section G

A. Module Aim

The Bank Risk Management (BRM) module develops the candidate's knowledge, understanding and skills relating to bank risk management in a digital age, considering the types of risk that arise from the nature of banking, the trends that are shaping emerging risks, and the implications of these for the future of bank risk management. Candidates will develop their abilities to view risk holistically across the bank, identify and manage risk within the context of their own role, and think ahead and prepare for the future. They will also enhance their understanding of what it takes to build an effective risk culture that supports the bank's strategy and values and where decisions are made in line with the bank's risk appetite.

B. Learning Outcomes (LO)

Upon completion of this module, candidates will be able to:

LO1 – Evaluate the impact of current trends and influences on the types of risk to which banks are exposed due to the nature of their activities, and the implications of emerging risks for effective risk management

LO2 – Assess the extent to which the regulatory responses to bank failures and financial crises have been effective in improving bank risk management

LO3 – Critically reflect on the extent to which the adoption of a holistic approach to risk management is effective in measuring, monitoring, and mitigating risks to which a bank is exposed

LO4 – Assess the ways in which banks manage a range of key risks

LO5 – Critically assess the ways in which best practice in risk management could be applied to build and embed an effective risk culture

LO6 – Formulate a view on what the bank of the future may look like and the implications for bank risk management.

C. Learning Method – as provided by Chartered Banker Institute, UK

1. Delivery methodology

- Self-study
- Self-assessment and reflective activities
- Case studies
- Online discussion forums
- Online knowledge checks at the end of each unit
- Applying learning at work
- Reviewing and reflecting on current practice
- Creating a personal development plan to develop candidates' skills and further enhance professional practice.

2. Learning resources

- An interactive study guide in pdf format.
- Textbooks and online resources for core reading.
- Recommended further reading and resources.

D. Assessment

Examination (Pearson-Vue Online)	MCQ	Written	Assignment
Duration			
Format	6,000-word work-based assignment		
Passing mark	60%		

E. Syllabus Outline

#	Learning topics	Learning outcomes (LO)	Assessment criteria
1	<p>Bank business and risks</p> <p>1.1 Overview of key principles of banking, finance, and financial products</p> <p>1.2 Types of bank risks</p> <p>1.3 Risk drivers, influencers, and trends</p>	<p>LO1 – Evaluate the impact of current trends and influences on the types of risk to which banks are exposed due to the nature of their activities, and the implications of emerging risks for effective risk management.</p>	<ol style="list-style-type: none"> 1. Explain key principles of banking, finance, and financial products. 2. Differentiate between the types of risk to which a bank is exposed and how they are interrelated. 3. Identify the key drivers of risk and emerging risks in the current risk landscape for banks. 4. Evaluate the impact of current trends and influences on the types of risk to which banks are exposed and the implications of emerging risks for effective risk management.
2	<p>Bank failures, financial crises, and regulation</p> <p>2.1 Bank failure</p> <p>2.2 Early warning signals for bank soundness</p> <p>2.3 Bank restructuring</p> <p>2.4 Banking crises</p> <p>2.5 Bank regulation and supervision</p>	<p>LO2 – Assess the extent to which the regulatory responses to bank failures and financial crises have been effective in improving bank risk management.</p>	<ol style="list-style-type: none"> 1. Identify the key determinants of bank failure and the causes of banking and financial crises. 2. Differentiate between types of early warning systems designed to monitor bank risk and

			<p>the ways in which banks manage risk.</p> <p>3. Assess what banks should be doing now to prepare for and deal with structural trends.</p> <p>4. Assess the challenges that banks will be required to navigate to enable them to thrive in the future.</p> <p>5. Assess the ways in which banks might transform their risk management functions to adapt to a future banking environment.</p>

F. Qualification Time Limit

The qualification time limit refers to the time allocated to candidates to complete all the required modules for a certificated programme at the respective level of study. Candidates must complete the programme within the stipulated qualification time limit upon enrolment, failing which they will lose all the passes accumulated and must re-apply to the programme.

The qualification time limit for Level 3 Chartered Banker (CB) Programme is **24 months**.

G. Module Time Limit

The module time limit refers to the time allocated to candidates to complete and pass the module after successful registration.

The module time limit starts once candidates have successfully registered to a module. The module time limit for this module is **12 months**. Please make sure you complete your module before the module time limit expires. Candidates who did not complete within the module time limit are required to re-register the module with full payment.

For more information on the qualification and module time limit, please refer to the [AICB Membership and Qualification Regulations](#).
